Discussed applicants amendment filed 11/18/08 with J. Richter and S. Padmanabhan. It was decided that the 112 rejection should be maintained since applicant did not recite what the phrase "preventing breast cancer" means even in view of the statement on the record that prevention of breast cancer means to reduce the risk of or the incidence of breast cancer as well as in view of the breast cancer art provided by defining "prevention" therein as reducing the risk of or incidence of breast cancer.	12/5/08	anp
